

SAVE

\$3,000*

Per year by making coffee at home.

If your household typically consumes 2 milk-based coffees per day from a café, you could save over \$3000* per year by buying a Breville Coffee Machine.

Here's our calculations:

Buying Coffee from a Café :

	Per Week	Per Year
2 x Coffees per day (per household) @ \$6 per cup	\$84.00	\$4,368.00

Owning a Breville Coffee Machine :

	Per Week	Per Year
Cost of Milk	\$ 8.82	\$458.64
Cost of Coffee Beans	\$10.22	\$531.44
Cost of Cleaning / Maintenance / Servicing	\$ 7.00	\$364.00
Total Costs	\$26.04	\$1,354.08

Café Costs		\$4,368.00
Coffee at Home Costs		\$1,354.08
SAVINGS		\$3,013.92

*Savings calculated on:

- 2 takeaway milk coffees per day for your household, at \$6 each.
- Includes machine maintenance, cleaning accessories, milk and coffee beans.
- 2nd year of ownership and every year thereon (once machine has been paid for).
